

Little Footsteps presents...

Dance Moves

Our *Dance Moves* Enrichment program allows children to think in a more creative, confident way. They will be learning how to perform dance steps and count along to the tempo.

Enrichment programs, such as dance in particular, can help students with confidence! When a step they have been struggling with is mastered, they will have a new found confidence to realize that hard work, perseverance, and pursuing goals is worth it! Our program runs throughout the school year, ending with a Recital to showcase their newly learned talents!

Hip Hop

Ballet

Jazz
